Education

2020-2024	Chandigarh University SGPA 8.15 bachelor of technology in Information Technology	Punjab, India
2020	12TH (SENIOR SECONDARY EXAMINATION) Score: 75% Central Board of Secondary Education	Dharamshala,India
2018	10TH (SECONDARY EXAMINATION) CGPA: 6.9/10.0 Central Board of Secondary Education	Dharamshala,India

Projects

July 2021	AWS VPN Hosted a VPN server on AWS to connect with local routers at my home , Used the amazon free tier to launch an EC2 virtual machine with OpenVPN on it and after configuring the routing table it was connected to my home network ,
July 2022	AWS Static Website http://karans-webpage.s3-website.ap-south-1.amazonaws.com Hosted a static website on the AWS S3 . Used Amazon free tier to create a S3 bucket , changed its bucket policies and uploaded the website resources . Used AWS's static webpage hosting to host the page .
March 2022	Portfolio Website https://karanS08.me A HTTPS web page made using Javascript ,CSS and HTML. Made the page user responsive, the Stars follow the mouse while hovering over the website. The page is hosted on github under custom domain name , configured SSL certificate A records to get https.
March 2022	Tic Tac Toe Game https://karanS08.me/Tic-Tac-Toe-Game/ An online hosted web game made with pure Javascript. The game has an AI built into it with which a user can play. It's very challenging to beat the AI on the hardest difficulty.
December 2021	IP Locator A python based application which asks the user for the IP address and returns the last known location of the IP. The application uses REST-api to fetch 10 different data from the IP finder records and gets the information to the local terminal.
July 2021	Web-Scraper with python A webscraper written in python which was capable of scrapping data from the Official University website(UIMS) in json format and then display it in the terminal . It could fetch student attendance , datesheet and marks .
June 2021	Web automation with selenium in Python An application which automated the process of logging into the online classes platform (Collaborative) and open the class link on the scheduled time .
March 2021	Covid 19 statics desktop notification application Used the REST-api framework to make calls for Corana official records and sent a notification of data every 6 hours to the user in a notification format at the lower right of the screen

Skills

Technical

- | | |
|-----------------|----------------------------|
| 1. Python | 2. Linux |
| 3. C++ | 4. AWS |
| 5. Command Line | 6. HTML , CSS , JavaScript |

Inter-personal

- | | |
|--------------------|--------------------|
| 1. Decision making | 2. Team Leadership |
| 3. Problem Solving | |

Co-curricular

CTFs

Participate in various CTFs to improve problem solving capabilities, can solve forensics and crypto challenges to an intermediate level . Participated in major challenges eg. HTB apocalypse 2022, HTB apocalypse 2021, NahmCom 2022 , SurakshaThon 2022 etc

TryHackMe <https://tryhackme.com/p/karanS08>

It is an online platform that teaches cyber security through short, gamified real-world labs . Have a "Hacker" Rank on the platform with 4400+ points . Knowledge on Topics like Privilege Escalation , Reverse Engineering, PWN, Cryptography, Digital Forensics .

HackerRank

Solve various problems to improve coding logics . 4 stars in python programming language. Practice data structures in c++.

Hackathons

Participate in various hackathons organized by the university or other government bodies . Participated in hackathons like I-Neuron Hack-a-thon(jaipur) , Smart India Hackathon , Hack-the-Fest etc

Specializations & Courses

Infosec ,Coursera	Python For Cybersecurity	June 2022
Internshala Training	Cloud computing with AWS	June 2022
IBM, Coursera	IBM Cybersecurity Analyst	April 2022
Johns Hopkins University, Coursera	HTML, CSS and JavaScript for Web Developers	April 2022
Learn2Quest, Coursera	Learning Linux For LFCA	March 2022
