3nd year undergraduate student pursuing bachelor's in Information Technology (IT) at Chandigarh University passionate about Cyber Security, Cloud Computing and Web Development looking for a 1 month internship to apply my skills and also learn new ones.

Education

Btech. in Information Technology
Chandigarh University 2020-2024

Chandigarh

Secondary Education
BD DAV Public School   2019 –2020

Dharamshala

Projects

Portfolio Website   https://karanS08.me
An internet hosted web page which was made using Javascript CSS and HTML. I tried to make the page user responsive, the stars follow the mouse pointer while hovering over the website.

Tic Tac Toe Game   https://karanS08.me/Tic-Tac-Toe-Game/
An online hosted web game made with pure Javascript. The game has an AI built into it with which a user can play. It's very challenging to beat the AI on the hardest difficulty.

IP Locator
A python based application which asks the user for the IP address and returns the last known location of the IP. The application makes an API request to the IP finder websites and gets the information to the local machine.
